IN LOVING MEMORY  
WE ARE SADDENED TO ANNOUNCE THE PASSING OF  
**Dr. Filippos S. Diamantis**

• ANMA PRESIDENT 2014-2020 •

Dr. Filippos Diamantis was actively involved with ANMA since 1981 and served as President from 2014 to 2020. His dedication and commitment has been an integral part of the success and growth of naturopathy.

*HE WILL ALWAYS BE REMEMBERED AND MISSED*

ANMA and the naturopathic profession  
lost colleagues and supporters this year.  
It is with great sadness that ANMA says  
goodbye to its dear friends.  
You will be greatly missed.

## *President's Corner*

**Dr. Richard Drucker, MS, ND, PH.D.** has been named as Interim ANMA President. Dr. Drucker has been involved with ANMA since 1999 and brings decades of experience. Dr. Drucker has earned a Bachelors of Science from the Indiana University, and has earned from Clayton College of Natural Health a Masters of Science in Natural Health, Doctorate in Naturopathy, and a Doctorate in Natural Health with specialty in Natural Immunology. Dr. Richard Drucker, founder and CEO of Drucker Labs, suffered health issues at a young age. Unable to find relief from his allopathic practitioners' approach, he conducted his own research and discovered the importance of high-quality, optimum nutrition on his own health. Dr. Drucker founded Drucker Labs in 1999 and has become a highly respected authority in the field of natural health. He has dedicated his life to the pursuit of exceptional Organically-bound and proprietary nutritional products.

This year ANMA announced the cancellation of the 39th Annual Convention & Educational Seminar. The Westgate Resort has canceled the event due to the logistics required to put on a show such as this during the COVID-19 (Coronavirus) pandemic. ANMA is providing the Virtual Brochure as an opportunity for you to explore the latest in products and services from our valued exhibitors. Join myself and the members of the Board of Directors, as we are excited to meet each of you in August 2021 in Las Vegas! Take Care, Be Well, See you in 2021!

**Astridian®** refers to a science that provides ions to the microcirculatory environment creating an optimized balance at the cellular level. Astridian® cations are positively charged, providing a redox signal of 400 mV that creates a polarity attraction to reduce free radicals and oxidative stress.

Specific components of the science establish balancing of oxidative species (Cationic Hydrogen), nitrogen reactive species (Cationic Amine), and sulfur reactive species (Cationic Sulfur), contributing to the energy required in cellular production. Astridian® cationic minerals of Zinc and Copper produce superoxide dismutase. Astridian® cationic Magnesium and its additional micronutrients will help to increase known deficiencies to provide optimum health topically.

Each Astridian® formulation represents the strength of our patented science and combines high-quality ingredients for specific needs and use. All of which are well known proven ingredients from the beginning of time.

**ASTRIDIAN® FACTS TO COMPARE:**

- \* Hydrogen is the number one antioxidant.
- \* Astridian® has an ORAC value of 1040 mV.
- \* Hydrogen bonds with many molecules particularly O2- converting this radical to H2O.
- \* Astridian® contains H+ in a hexa-aqua ligand system.
- \* Zinc / Copper SOD is the free radical scavenger in human plasma.
- \* Astridian® contains a 5/2 Zn+2 to Cu+2 ratio.
- \* Human Skin receives the least amount of nutrition and the most free radicals.
- \* Astridian® topical administration circumvents gut health and absorbance problems.
